

# EMSA

Entrepreneurial Mindset and Key Skills for All

EMSA IS AN **ERASMUS+ CO-FUNDED PROJECT** THAT STARTED IN **JANUARY 2023** AND WILL LAST UNTIL **DECEMBER 2025**.

It aims to **empower Learners and Entrepreneurs** with **2 comprehensive training programs**:

- **Entrepreneurial Mindset Skills** based on the Entrepreneurship Competence Framework (ENTRECOMP).
- **Key Skills for Lifelong Learning** based on the European Reference Framework (ERF).

EMSA HAS GONE THROUGH DIFFERENT STAGES, HAVING MADE **MAGNIFICENT PROGRESS: TAKING YOU INTO OUR JOURNEY**

## 1 Initial Planning

The partners met in Nicosia, Cyprus for the 1st Transnational Meeting and Partner Workshop of the project. As a kick-off point, they agreed on the project management plan and they defined the learning outcomes for all the 15 competencies of ENTRECOMP and 6 out of the 8 competencies of ERF.

## 2 Material Development

The partners started working on creating training materials on ENTRECOMP, which resulted in 15 training courses of 80 hours in total. To provide more opportunities for learners, the materials created in English were translated into Arabic and Greek.

## 3 Material Review and Refinement

The partners met in Larissa, Greece for the 2nd Transnational Meeting and the 1st Training of Master Trainers of the project, where they presented and reviewed all the materials that had been created. Considering the project plan, the project timeline and the upcoming stages of the project were discussed, including the development of courses on ERF and the conversion of the ENTRECOMP courses into asynchronous ones.

## WHAT IS NEXT?

FOR EMSA

### ONE

EMSA will open its doors to the audience to apply and attend the 15 training courses on ENTRECOMP, which will be conducted online. Assessment and certification of the learners with ISO17024 will follow.

### TWO

Afterwards, the training materials will be transformed into self-paced learning courses and will be uploaded on the Moodle platform.

### THREE

During the delivery of the ENTRECOMP courses, the next phase of training material development will take place, focusing on the 6 competencies of ERF, which will result in 6 courses of an overall duration of 120 training hours.

## PROJECT PARTNERS

The project connects **2 European countries (Cyprus, Greece)** with **3 non-European countries (Egypt, Jordan, Palestine)** to formulate a network for the project to foster its outcomes.
