

MT6.3_3 Case Study: “ Presenting a real-life or hypothetical scenario where a communication barrier occurred”

Which communication barriers did Aisha and Tom experience during their collaboration? (Select all that apply - There is 1 incorrect answer)

1- Semantic Barriers – Aisha and Tom had different interpretations of the term "deadline," leading to project delays.

2- Psychological Barriers – Aisha felt overwhelmed by the fast-paced environment and perceived Tom’s feedback as criticism, affecting her confidence.

3- Physical Barriers – Communication was disrupted due to technical issues during their meetings.

4- Cultural Barriers – Aisha valued personal connections, while Tom prioritized efficiency, leading to differences in work style.

5- Organizational Barriers – The company lacked established communication protocols for cross-departmental projects.
